Sachverhalt

you have fulfilled the conditions under Union law for the free movement of third-country family members over a period of five years (for example, if you have held a residence card for five years).

Shorter periods of absence are irrelevant for the calculation of the period for acquiring the permanent right of residence. Thus, permanent residence can also be assumed if you leave the territory of the Federal Republic for a total of six months a year, to perform military service or alternative service, or for an important reason once for up to twelve consecutive months (for example, due to a serious illness, studies or vocational training).

With the acquisition of the right of permanent residence, you receive an improved legal status, regardless of your nationality. In addition, the protection against expulsion is increased.

Under certain conditions, family members can also obtain the permanent right of residence independently of permanent residence with the German entitled to freedom of movement (for example, if the reference person dies after at least two years of joint residence in Germany or as a result of an occupational accident/illness).

Erforderliche Unterlagen

- Recognized and valid identity document (for example passport or passport substitute)
- Current biometric photo in passport format (45 x 35 mm)
 - For minors: Consent of the persons entitled to custody to the planned stay (declaration of consent); if the parents entitled to custody cannot submit the application jointly for their child, a written power of attorney of the absent parent is required; if only one parent is entitled to custody, the signature of this parent is sufficient.

The immigration authorities may also require the

Modul

Sachverhalt

submission of the following documents:

- Proof of the continuation of the family relationship with the reference person (for example, marriage or birth certificate).
- Proof that the reference person has made use of his or her right to freedom of movement (e.g. confirmation of registration, employment contract or confirmation of employment, trade license or proof of self-employment).

In the case of joining a non-employed reference person, the Aliens Department may also require:

- Proof of sufficient means of subsistence
- Proof of health insurance coverage (e.g. confirmation of health insurance coverage or insurance policy).

In the case of joining a reference person in the course of studies, the Aliens Department may also require:

- University admission or enrollment certificate of the reference person
- Proof of sufficient means of subsistence
- Proof of health insurance coverage (e.g. confirmation of health insurance coverage or insurance policy).

The documents and information must generally be submitted in German. In individual cases, the Aliens' Registration Office may require less or further proof.

Voraussetzungen

- You are a citizen of a third country (i.e. you are not a citizen of an EU member state, the EEA or Switzerland).
- You are a family member of a person with German citizenship, i.e. you are
 - spouse,
 - a life partner,

Modul

Sachverhalt

- a relative in a straight descending line (for example, children) of the German or of the spouse/life partner who has not yet reached the age of 21 or who is supported by them, or
- a relative in a straight ascending line (for example, parents and grandparents) of the German or of the spouse or life partner who is being supported by them.

Please note: In the case of student reference persons, the circle of family members entitled to join the family is limited to spouses and life partners as well as children who are granted maintenance.

- You maintain a family relationship with the German (you do not necessarily have to live together for this).
- You have continuously resided in Germany with your reference person for a period of five years.

Please note: Shorter periods of absence are irrelevant for the calculation of the period for acquiring the permanent right of residence. Thus, permanent residence can also be assumed when leaving the federal territory for a total of six months per year or for the performance of military service or alternative service, as well as once for up to twelve consecutive months for an important reason (for example, due to a serious illness, studies or vocational training).

The reference period for the permitted six-month absence, is the period per year of residence, beginning with the anniversary of the start of the stay.

You can acquire a permanent right of residence even before five years have elapsed if your reference person dies, for example, as a result of an accident at work or an occupational disease.

- You have fulfilled the conditions under Union law for the free movement of family members who are third-country nationals for more than five years. You can assume this if the residence card was issued to you for a period of five years.
