Such vehicles, which largely correspond to their original condition and are in good condition, are cultural motor vehicle assets. Classic cars are often not intended for everyday use. However, there are historic vehicles with which you can take part in road traffic without restrictions. These vehicles have an "H" in the last position of the license plate, which stands for "historic".</p> <p>An H license plate is associated with various advantages for you, for example</p> <ul style="list-style-type: none"> <li>• Tax relief</li> <li>• insurance benefits</li> <li>• Different regulations in environmental zones</li> </ul> <p>The registration authority will issue you with the H license plate when you apply for a registration for a</p>

### Verfahrensablauf

When applying in person:

When you register your classic car with your local registration authority, you will be allocated a license plate combination on the spot. The registration authority may require you to present the vehicle. With this allocation:

- have the license plates produced;
- have the stickers affixed to the license plates by the registration authority;
- attach the license plates firmly to the vehicle in the designated places.

When applying online:

You can only apply for a classic car license plate online if the vehicle has previously had a classic car license plate. If you apply for a classic car license plate via the i-Kfz Portal:

- the allocation of a classic car license plate is entered directly into the Central Vehicle Register
- you will receive the classic car license plate as a notification by e-mail or as a download
- have the license plates embossed
- attach the registration authority stickers to the license plates
- attach them properly to the designated place on the vehicle

The following applies to both types of application:

When re-registering a vehicle, you can apply to have the previous license plates reassigned to you. This also applies if you have reserved the license plate for the re-registration of your vehicle.
