Teaser	Your child has problems in everyday life or in his development? You as a parent cannot help your child alone? Then an educational advisor can support your child.
Volltext	An educational aide or caregiver aide can help a child or adolescent with daily living, dealing with his or her parents, and with social problems. Possible helps are: • Talking about problems, fears and behavior • Help in coming to terms with stressful experiences • Support in solving problems with family, friends, teachers or others • Support with visits to authorities • For older adolescents, there is additional help: Support in finding a job or a place to live • Help with detachment from parents • Help in becoming independent Note: In contrast to "socio-pedagogical family assistance", an educational assistant focuses his or her help largely on the child or young person in question. If possible, he involves the social environment. This is a type of assistance for upbringing. It can also apply to young adults.
Erforderliche Unterlagen	• Identity card • If applicable, proof of custody, for example: birth certificate, information from the custody register, decision of the family court regarding custody
