Modul

Sachverhalt

- Transporting objects of all kinds using packaging material made of wood

Operators (commercial activity) can only be entered once in the register of a competent authority. If an operator has several businesses or branches, reference is made to the branches in the official register.

Notes on protected areas: In the EU, there are phytosanitary protected zones in which one or more specific pests do not yet occur. Certain goods may only be delivered to these protected areas if they meet special requirements.

Ireland, for example, is still free of some pests due to its island location and therefore there are additional requirements for certain goods. In Germany, there are currently no phytosanitary protected zones.

Erforderliche Unterlagen

The following information is required:

- Contact details: Name, address in the member state of registration and contact details of the entrepreneur.
- Declaration by the entrepreneur stating his intention to carry out one or more activities in accordance with Art. 65 para. 1 of Regulation (EU) 2016/2031.
- Site plan: This is required for all companies that have other buildings / areas in addition to their office that are relevant to phytosanitary activities (e.g. nursery quarters, greenhouses).
- Information on other business premises: Information is required for all companies that have other operating sites (with their own address) in addition to their head office. Pure production areas (e.g. nursery quarters) are not counted as business premises, but must be indicated on the site plan.

Voraussetzungen

- The prerequisite for registration is the existence of the registration obligation and complete application documents.
- Necessary inspections may also be required.
