Sachverhalt

Entrepreneurs (commercial activity) can only be entered once in the register of a competent authority. If an operator has several businesses or branches, reference is made to the branches in the official register.

Information on protected areas: In the EU, there are phytosanitary protected zones in which one or more specific pests do not yet occur. Certain goods may only be delivered to these protected areas if they meet special requirements. Ireland, for example, is still free of some pests due to its island location and therefore there are additional requirements for certain goods. In Germany, there are currently no phytosanitary protected zones.

Erforderliche Unterlagen

- Site plan: This is required for all companies that have other buildings / areas in addition to their office that are important for phytosanitary activities (e.g. nursery quarters, greenhouses).
- Information on other business premises: Information is required for all companies that have other operating sites (with their own address) in addition to their head office. Pure production areas (e.g. nursery quarters) are not counted as business premises, but must be indicated on the site plan.

Voraussetzungen

- The prerequisite for registration is the existence of the registration obligation and complete application documents.
- Necessary inspections may also be required.
- The contact persons named in the registration application must have appropriate knowledge of plant health in accordance with the activity carried out by the operator and be personally available to the staff of the competent authority if required.

Kosten

Verfahrensablauf

- As an entrepreneur, you submit the registration application to the responsible Chamber of Agriculture.
- The responsible Chamber of Agriculture will check the application documents and carry out any necessary checks.
- If the check is positive, a registration number will be assigned.
