qualification.

****Possible results of the examination****

If your professional qualification is equivalent, your foreign professional qualification will be recognised. The competent body can confirm the result to you in writing. You still have to fulfil the other requirements. Then you will be granted permission to use the professional title "Diätassistentin" or "Diätassistent".

Are there any significant differences between your professional qualification and the German professional qualification? Perhaps you can compensate for the differences through your professional practice, other knowledge or skills (lifelong learning). You have to prove the professional practice. Knowledge and skills must be certified by an authority of the state in which you acquired the knowledge or skills.

However, it may be that the essential differences cannot be compensated by this knowledge. In this case, your foreign professional qualification will not be recognised. You will then not be allowed to work as a dietician in Germany.

However, the competent authority will tell you the essential differences and why you cannot compensate for the essential differences through your professional practice.

In most cases, you will be able to take a compensatory measure. This will enable you to compensate for the substantial differences.

****Compensatory measures****

There are different compensatory measures:

- Adaptation course: the adaptation course lasts a maximum of three years.
