European Union (EU), the European Economic Area (EEA) or Switzerland, you can also obtain a state license from the competent authority in Germany. In order to obtain the permit, you must have your foreign professional qualification recognized.

On January 1, 2020, nursing training in Germany was reformed and the new Nursing Professions Act came into force. There is a transitional period for the recognition of foreign professional qualifications on the basis of the Nursing Act. Your foreign professional qualification may still be recognized under the old Nursing Act until 31 December 2024. The competent authority will advise you.

In the recognition procedure, the competent body will compare your professional qualification with the German professional qualification and check the equivalence. The equivalence of the professional qualification is an important prerequisite for the granting of a state license. In addition to the equivalence of the professional qualification, you must also meet other requirements for the permit to be issued. Further requirements include, for example, sufficient German language skills and health suitability.

If your professional qualification does not originate from the EU, the EEA or Switzerland, other regulations apply. You can also apply for the procedure from abroad.

Erforderliche Unterlagen

The responsible office will tell you which documents you need to submit. Important documents are generally

- Proof of identity (identity card or passport)
- Marriage certificate (if your name has changed due to marriage)
- Curriculum vitae
- Proof of your professional qualifications (e.g. certificates, professional certificate)
- Proof of training

You usually submit these documents later. The responsible office will inform you when you should submit the documents:

- Proof of your personal suitability: criminal record extract or certificate of good conduct from your country of origin. The certificate must not be older than 3 months at the time of application.
- Proof of your health suitability: Medical certificate. The certificate must not be older than 3 months at the time of application.

Kosten	<p>The responsible office will inform you of the costs. The costs generally depend on the time and effort required for processing.</p> <p>Additional costs may also be incurred (e.g. for translations, certifications or compensatory measures such as an adaptation period or an aptitude test). These costs vary from person to person.</p>

Modul

Sachverhalt

Are there any significant differences between your professional qualification and the German professional qualification? You may be able to compensate for the differences through your professional experience, other knowledge, skills or competencies (lifelong learning). Knowledge, skills and competences must be certified by an authority in the country in which you acquired the knowledge, skills or competences.

However, it may be that the significant differences cannot be compensated for by your professional experience, knowledge, skills or competences. In this case, the competent authority will inform you of the significant differences between your professional qualification and the German professional qualification and why you cannot compensate for these significant differences.

The competent authority will also inform you of compensatory measures that you can take to offset the significant differences. If you decide not to take compensatory measures, your professional qualification will not be recognized and you will not be allowed to work as a healthcare and paediatric nurse in Germany.

Compensatory measures

There are various compensation measures:

- Adaptation course: The adaptation course lasts a maximum of 3 years.
- Aptitude test: In the aptitude test, only those areas in which significant differences have been identified are tested. The aptitude test consists of a practical examination combined with an interview.

As a rule, you can choose between an adaptation period or an aptitude test. If you successfully complete the compensation measure and meet all other requirements, you will be granted permission to use the job title "healthcare and children's nurse", "healthcare and children's nurse" or "healthcare and children's nurse".
