Teaser	The promotion of sales of electrically powered vehicles (environmental bonus) has expired.
Volltext	<p>Funding for the sale of electrically powered vehicles (environmental bonus) has expired</p> <p>In the course of the negotiations on the Climate and Transformation Fund (KTF), it was decided on 13.12.2023 to end the funding through the environmental bonus in the near future. As of 00:00 on December 18, 2023, no new applications for the environmental bonus can therefore be submitted to the Federal Office of Economics and Export Control (BAFA).</p> <p>The background to this is the implementation of the ruling by the Federal Constitutional Court, as a result of which 60 billion euros will be withdrawn from the KTF. As a result, the KTF's business plan for 2024 will have to be revised and it will have fewer funds at its disposal.</p> <p>The following applies to the environmental bonus: funding that has already been approved is not affected by the end of funding and will be paid out. Existing applications received by BAFA up to and including December 17, 2023 will be processed in the order in which they are received and - provided the eligibility requirements are met - approved.</p>
