Teaser	You can apply for information from the non-public part of the site register for genetically modified organisms (GMOs) at the Federal Office of Consumer Protection and Food Safety.
Volltext	All areas on which GMOs are released for scientific purposes or cultivated for commercial purposes in Germany are registered in the site register for genetically modified organisms. The site register consists of a public and a non-public part. The public part contains general, freely accessible information on the location and use of these areas. The non-public part also contains personal data such as names and addresses. To obtain information from the non-public part of the site register, you must submit an application. Note: You can view the public part of the site register without making an application (see also "Viewing the site register for genetically modified organisms (public part)").
Erforderliche Unterlagen	• Proof of the location of your property and the property on which genetically modified organisms are released or cultivated. (for example, a map to scale showing both plots of land or information from the land registry about the distance between the two plots of land). • Proof of ownership or use of your property (for example, a copy of the lease or purchase agreement). • Identity card (single copy)
