Modul	Sachverhalt
Leistungsschlüssel	99151001019001
Leistungsbezeichnung I	Marktstammdatenregister Strom und Gas Registrierung von Marktakteuren
Leistungsbezeichnung II	Registering market operators in the register
Typisierung	1 - Bund: Regelung und Vollzug
Quellredaktion	Bund
Freigabestatus Katalog	fachlich freigegeben (gold)
Freigabestatus Bibliothek	unbestimmter Freigabestatus
Begriffe im Kontext	
Leistungstyp	Leistungsobjekt mit Verrichtung
Leistungsgruppierung	
Verrichtungskennung	Registrierung (19)
SDG-Informationsbereich	nicht SDG-relevant

Modul	Sachverhalt
Lagen Portalverbund	
Einheitlicher Ansprechpartner	Nein
Fachlich freigegeben am	10.08.2021
Fachlich freigegeben durch	Federal Ministry for Economic Affairs and Energy
Handlungsgrundlage	https://www.gesetze-im-internet.de/mastrv/index.html https://www.gesetze-im-internet.de/enwg_2005/_111e.html https://www.gesetze-im-internet.de/enwg_2005/_111f.html
Teaser	If you are a market player in the electricity or gas market, you must register in the Market Master Data Register (MaStR) of the Federal Network Agency.
Volltext	As the central register for the energy transition, the Market Master Data Register (MaStR) collects data on all relevant market players in the electricity and gas energy markets and, in a second step, on all generation plants: • All new plants and all existing plants, • plants for the generation of renewable and conventional energy, • electricity and gas generation plants. If you operate an electricity or gas generation plant (e.g. photovoltaic plant, wind energy plant, combined heat and power plant, battery storage, biomethane plant), you must register it in the MaStR. You are also obliged to register if no subsidy is granted or claimed for the electricity from the plant. All running plants must be registered regardless of when they were commissioned - even if your plant has been running for many years. This means that even if you have already registered your plant in various other places, for example with your grid operator or in previous registers of the Federal Network Agency, you must register these plants again in the MaStR. As a citizen (natural person), you can also register via forms in exceptional cases upon request. Authorities can access the data in the MaStR. This enables them to either

Modul	Sachverhalt
	significantly simplify their own surveys or dispense with them altogether. Plant operators and other market players can refer to the data they have entered in the MaStR.
Erforderliche Unterlagen	No special documents are required for registration as a market player. For the registration of the units in the second step, the documents are listed separately.
Voraussetzungen	You do not have to meet any prerequisites.
Kosten	You don't have to pay anything.
Verfahrensablauf	If you would like to register yourself as an operator and your electricity and gas generation plants in the MaStR, you can do so via the MaStR Internet portal: • Access the MaStR Internet portal and first register as a user with a valid e-mail address. • Log on to the MaStR Internet portal and register as a plant operator. • Then register your unit in the second step. • Upon successful registration, the system will provide you with your registration certificate with your registration numbers (MaStR numbers). • You can make changes and corrections online at any time.
Bearbeitungsdauer	• Online procedure: none, registration confirmation can be printed out directly • Form registration: approx. 14 days (from application to receipt of registration confirmation)
Frist	A period of 1 month shall apply to the notification of operators.
