Teaser	If you own an ultralight aircraft that is subject to registration, you must register it under certain circumstances.
Volltext	The air sports equipment register stores the data of all ultralight aircraft, ultralight helicopters and gyrocopters registered in Germany. You must apply for a license plate for air sports equipment that requires registration in order to fly it. In this case, your air sports equipment will be registered for you in the register of air sports equipment by the authorized air sports associations. Air sports equipment requiring registration includes three-axle aircraft with an empty weight of over 120 kilograms, for example • Trikes, • gyroplanes and • paramotor trikes. Personal data such as the name and address of the owner as well as technical data, for example • Type and model of aircraft and airframe serial number, • nationality and registration mark of the aircraft and • the sheet number of the aircraft register. Under special circumstances, German authorities may access your data. This applies • for administrative measures in the field of air traffic, • for the prosecution of infringements of aviation regulations or
