Teaser	You can obtain information about the data on occupational radiation exposure stored in the radiation protection register from the Federal Office for Radiation Protection.
Volltext	The Radiation Protection Register is a central federal institution and is operated by the Federal Office for Radiation Protection (BfS). It • collects data on occupational radiation exposure throughout Germany, • monitors compliance with limit values, • monitors the issue of radiation passports and • issues the radiation protection register number (SSR number). The Radiation Protection Register thus fulfills a legal task laid down in the Radiation Protection Act. You can obtain information from the Radiation Protection Register (SSR) if you: • belong to persons or organizations that require this information for the performance of their tasks • are an affected person yourself The following information is stored in the radiation protection register • Radiation protection register number (SSR number) • Personal data: First name Family name Surname at

Modul

Sachverhalt

birth Place of birth Date of birth

- Employment characteristics and exposure ratios
- Company number of the employing company
- Name and address of the person responsible for radiation protection and other obligated and responsible persons
- Details of a valid radiation pass, if applicable
