Sachverhalt

- they have their management and
- do not have their registered office in Germany,
- but earn income in Germany.

If you apply for assessment, the tax is calculated on the basis of all income.

The income is the amount that must be paid to you by the payer. If the payer has deducted the tax from this amount and paid you the remaining amount, the tax deduction amount and the associated solidarity surcharge can be credited against the assessed tax. As proof, you must attach the tax certificates issued by the payer to the tax return.

You make your application for assessment for income tax or corporation tax by submitting a tax return in writing by post to the BZSt.

Note If you have other income in Germany, you must submit your tax return to the tax office in whose district your assets are located or in whose district you have predominantly carried on your business. You should also contact this tax office if you have any questions. Other income includes, for example, income from trade, self-employment, employment, renting and leasing.
