## Sachverhalt

The amount of tax is determined by the type and quantity of coffee or by the coffee content in the goods. The tax rate is EUR 2.19 per kilogram for roasted coffee and EUR 4.78 per kilogram for soluble coffee. If you transport goods containing coffee to Germany, flat-rate tax rates apply depending on the content of roasted coffee or soluble coffee in the goods. If you have to pay the tax, you must submit a tax return without being asked to do so. If you do not wish to pay coffee tax initially, you will need permission from the main customs office.

### Erforderliche Unterlagen

### Verfahrensablauf

You can report the coffee tax by post or online.

Report coffee tax by post:

- Download the appropriate form from the Customs Administration website or the Federal Tax Administration's Form Management System (FMS).
- Complete the form in full and send it by post to your main customs office.
- The main customs office will check your tax return. If discrepancies are discovered during the check, you will be given the opportunity to correct incorrect information or complete incomplete information by the due date of the tax. If the claim is already due or if you do not correct the information, the main customs office will assess the duties with a tax assessment notice and inform you accordingly. If the check does not lead to any objections, the tax amount due will normally be collected from your account by direct debit. In these cases, you do not need to do anything further.
- If the coffee tax has arisen in connection with irregularities or a disregarded ban, you must also calculate this yourself and submit a written tax return:
