Email: poststelle@bmu.bund.de

Product type: Coffins

Name of the legal act/standards:

DIN EN 15017 Funeral services - requirements

VDI 3891 Emission control - human cremation facilities

As a general rule, the municipalities set out their own
requirements in cemetery regulations.

Main requirements for business users: Coffins must
not impede the decay process and must not release
any polluting substances during their own
decomposition or combustion. Certain varnishes,
handles and interior fittings can be particularly
problematic in this respect.

Contact details for the competent authorities:

Not applicable

Product type: Bicycles

Name of the legal act/standards:

European regulation: No specific regulations apply to
bicycles, which means that they are covered by the
general product safety rules.

Transposition in Germany: Road Traffic Licensing
Regulation (StVZO)

Main requirements for business users: A bicycle must
have two independent brakes, a clearly audible bell,

Modul

Sachverhalt

one illuminating device and several reflectors.
Illuminating devices are only approved for use on the roads if they display a test mark from the Federal Motor Transport Authority (KBA) (a wavy line, a capital letter K and a five-digit number).

A pedelec is permitted to have an electric support motor with a maximum output of 250 W and to reach speeds of up to 25 km/h.

Faster pedelecs or electric mopeds require a type approval from the

Federal Motor Transport Authority.

Product type: Plug-in solar panels

Name of the legal act/standards:

European regulation: CE marking, compliance with all the relevant regulations.

Modul

Sachverhalt

Transposition in Germany: There are no special statutory regulations. However the network operators responsible for safe and reliable network operation impose requirements (typically compliance with the standards DIN VDE V 0100-551 and DIN VDE V 0100-551-1). In addition, connections via two-pin earthed plugs are not permitted; a special plug connection pursuant to VDE V 0628-1 must be used:

DIN VDE V 0100-551 Low-voltage electrical installations Part 5-55: Selection and erection of electrical equipment - Other equipment - Section 551: Low-voltage generating sets

DIN VDE V 0100-551-1 Low-voltage electrical installations Part 5-55: Selection and erection of electrical equipment - Other equipment - Section 551: Low-voltage generating sets - Installation of generating sets for parallel operation with other energy sources including a public distribution network

VDE V 0628-1 Energy plug and socket outlets Part 1: Feeding into separate electric circuits

Main requirements for business users: The user is obliged to register with the network operator and the Federal Network Agency. Requirements also apply in terms of the nature and execution of the electrical installation. Cf.:

VDE Verband der Elektrotechnik Elektronik Informationstechnik e.V. - plug-in photovoltaic installations

Market master data register maintained by the Federal Network Agency - registration of photovoltaic installations

Product type: Waste electrical and electronic equipment

Name of the legal act/standards:

European regulation: Directive 2012/19/EU on waste electrical and electronic equipment Transposition in Germany: Act on the placing on the market, return and environmentally sound disposal of electrical and electronic equipment (Electrical and Electronic Equipment Act, ElektroG)

Main requirements for business users:

Mandatory registration: It [waste electrical and electronic equipment] is subject to registration if you are a manufacturer within the meaning of the Electrical and Electronic Equipment Act and the products that are offered fall under the scope of the Electrical and Electronic Equipment Act as electrical equipment. Subject to registration means that you must be in possession of the approval required for this purpose in the form of the registration notice before you place electrical equipment on the market. This obligation applies to each individual manufacturer, and to each individual authorised party in the cases covered by the authorisation pursuant to Section 8 ElektroG.

Product type: Batteries

Name of the legal act/standards:

European regulation: Directive 2006/66/EC on batteries
and accumulators and waste batteries and
accumulators

Transposition in Germany:

Act on the placing on the market, return and
environmentally sound disposal of batteries and
accumulators (Batteries Act, BattG)

Regulation implementing the Batteries Act (BattGDV)

Main requirements for business users: In the BattG
register, manufacturers (producers, importers etc.) of
batteries advertise their market participation in
electronic format. Among other things, the
manufacturers of batteries for equipment enter

Modul

Sachverhalt

information about the return system in which they are involved. Vehicle and industrial battery manufacturers provide details of the reasonable and free-of-charge return options that have been set up for distributors and treatment facilities.

Website

Product type: Packaging and packaging waste

Name of the legal act/standards:

European regulation: Directive 94/62/EC on packaging and packaging waste

Transposition in Germany: Act on the placing on the market, return and high-quality recycling of packaging (Packaging Act, VerpackG)

Main requirements for business users: Mandatory registration for manufacturers/initial placement on the market.

Anyone who places packaging subject to mandatory system participation on the market in Germany (manufacturer/first party to place the product on the market) must be registered with the Central Agency Packaging Register (ZSVR) on the LUCID Packaging Register. The status of manufacturer is based on the first commercial placement on the market or import into Germany and does not depend on the distribution method or commercial stage (Section 3 of the Packaging Act (VerpackG)).

Product type: Noise emission by equipment for use outdoors

Name of the legal act/standards:

European regulation: Directive 2000/14/EC on noise emission in the environment by equipment for use outdoors

Transposition in Germany: Thirty-Second Regulation implementing the Federal Immission Control Act (Equipment and Machinery Noise Control Regulation, 32. BImSchV)

Main requirements for business users: If the enclosed EC declaration of conformity is not issued in German, a copy of a German translation must also be enclosed. (Section 3)

Manufacturers duty to provide information:

The manufacturer or the manufacturers authorised representative must forward to the competent Land authority (only manufacturers based in Germany) and the European Commission a copy of the EC declaration of conformity for each equipment/machine type. The

Modul

Sachverhalt

entry of machine data by the manufacturer into the KarLA database complies with this national obligation. The data themselves can be entered following registration as a manufacturer.

The European obligation can be met by ensuring that an entry is also made in the Noise Database itself. The database can be found under EC Declaration of conformity.
