Teaser	
Volltext	A list of the product rules issued by the Federal Institute for Materials Research and Testing for the non-harmonised and harmonised sectors can be found below. European regulation: Transposition in Germany: The particulate matter limit value for the placement on the market of solid fuel boilers set out in the Regulation with regard to ecodesign requirements for solid fuel boilers, which has applied throughout Europe since 1 January 2020, is less demanding than that specified in the First Regulation implementing the Federal Immission Control Act (Germanys Regulation on small-sized combustion plants). Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU) Tel.: +49 30 18 3050 Email: poststelle@bmu.bund.de As a general rule, the municipalities set out their own requirements in cemetery regulations. Not applicable European regulation: No specific regulations apply to bicycles, which means that they are covered by the general product safety rules. Transposition in Germany: A pedelec is permitted to have an electric support motor with a maximum output of 250 W and to reach

Modul

Sachverhalt

speeds of up to 25 km/h.
Faster pedelecs or electric mopeds require a type approval from the Federal Ministry of Transport and Digital Infrastructure (BMVI)
Tel.: +49 30 18 3000
Email: buergerinfo@bmvi.bund.de
Federal Motor Transport Authority
Tel.: +49 461 3160
European regulation: CE marking, compliance with all the relevant regulations.
Transposition in Germany: There are no special statutory regulations. However the network operators responsible for safe and reliable network operation impose requirements (typically compliance with the standards DIN VDE V 0100-551 and DIN VDE V 0100-551-1). In addition, connections via two-pin earthed plugs are not permitted; a special plug connection pursuant to VDE V 0628-1 must be used:

 European regulation:
 Mandatory registration: It [waste electrical and electronic equipment] is subject to registration if you are a manufacturer within the meaning of the Electrical and Electronic Equipment Act and the products that are offered fall under the scope of the Electrical and Electronic Equipment Act as electrical equipment. Subject to registration means that you must be in possession of the approval required for this purpose in the form of the registration notice before you place electrical equipment on the market. This obligation applies to each individual manufacturer, and to each individual authorised party in the cases covered by the authorisation pursuant to Section 8 ElektroG.

 The German Institute for Structural Engineering
 performs a key role in the construction sector: by
 means of its approvals, permits and assessments, it
 guarantees the safety of structural works while at the
 same time supporting the development of new
 construction products and construction methods.
 Below can be found a link to a search function
 providing access to the legal basis, product rules and
 notifications of the German Institute for Structural
 Engineering for the non-harmonised and harmonised
 sectors. The approvals, type approvals and ETAs issued
