Modul	Sachverhalt
Leistungsschlüssel	99109069261000
Leistungsbezeichnung I	Anzeige ortsfeste Amateurfunkstelle mit einer äquivalenten isotropen Strahlungsleistung (EIRP) von 10 Watt oder mehr Entgegennahme
Leistungsbezeichnung II	Show fixed amateur radio station
Typisierung	1 - Bund: Regelung und Vollzug
Quellredaktion	Bund
Freigabestatus Katalog	unbestimmter Freigabestatus
Freigabestatus Bibliothek	unbestimmter Freigabestatus
Begriffe im Kontext	
Leistungstyp	Leistungsobjekt mit Verrichtung

Modul	Sachverhalt
Leistungsgruppierung	
Verrichtungskennung	Entgegennahme (261)
SDG-Informationsbereich	nicht SDG-relevant
Lagen Portalverbund	Urkunden und Bescheinigungen (1070200)
Einheitlicher Ansprechpartner	Nein
Fachlich freigegeben am	16.11.2023
Fachlich freigegeben durch	Federal Ministry of Economics and Climate Protection (BMWK)

Teaser	If you wish to operate a fixed amateur radio system with an equivalent isotropic radiated power (EIRP) of 10 watts or more as an amateur radio operator, you must first inform the Federal Network Agency (notification).
Volltext	As an amateur radio operator, you must notify the Federal Network Agency of an amateur radio system of 10 watts or more (EIRP) before commissioning. If you wish to operate a fixed amateur radio system with an EIRP of 10 watts or more, you must first • be licensed as an amateur radio operator in Germany and have a callsign valid in Germany. • confirm with the notification that the personal protection limits valid in Germany are complied with. As an amateur radio operator, you are responsible for the accuracy of the report, regardless of the aids or procedures used. A critical evaluation of the results is therefore strongly recommended. Acceptance of the report does not mean that the information will be checked for accuracy. A check will only be carried out on a random basis and in justified cases.

Modul	Sachverhalt
Erforderliche Unterlagen	You must submit a comprehensible graphic representation of the site-related safety distance and controllable area in a scaled sketch with the location of the reference antenna(s). The sketch must show that the site-specific safety distance ends within the controllable area.
Voraussetzungen	• You must be licensed as an amateur radio operator in Germany. • You must have a callsign valid in Germany. • You wish to operate an amateur radio system with 10 watts (EIRP) or more.
Kosten	There are no costs.
Verfahrensablauf	You can indicate your participation in the amateur radio service online or by post. Notify participation online: • Go to the website of the federal portal verwaltung.bund.de and call up the online application. This will guide you step by step through the necessary information, which you can enter electronically. To identify yourself, you will need the online ID function of your ID card, a federal user account for natural persons or an Elster certificate. • Upload the required documents and submit the application. Show participation by post: • Open the forms on the BNetzA website and fill it out. You will need: • the notification form for carrying out the notification, • the form for configuring the amateur radio system • Print out and complete both forms, sign and send the notification form together with the representation of the site-related safety distance and the controllable area to the Federal Network Agency. • All other documents (see Section 9 (3) BEMFV) must be kept ready at the fixed amateur radio installation:

Modul
Sachverhalt

- Documentation on compliance with the requirements of Section 8 (2) and (3) BEMFV,
- Antenna diagrams, if the antennas are commercially available,
- a site plan based on the development, property or land use plan, showing the adjacent properties or buildings and their use to the operating site of the notified radio installation as well as the areas in which the limit values according to § 3 BEMFV must be complied with,
- if the transmitting antenna is mounted on a building, a construction drawing or sketch with dimensions (side view and plan view) and
- details of the configuration of the installed fixed amateur radio system, including its transmission power and all other technical parameters required to assess the maximum electromagnetic fields emitted by the system.

The Federal Network Agency will accept your notification.
 In justified cases and on a random basis, the Federal Network Agency will check your details and documents and contact you with any queries.

Bearbeitungsdauer

This is only a notification. A decision will not be issued.

Frist

There is no deadline.
