- The information required in your case can be found in the letter.
- Log in to the survey portal of the Federal and State Statistical Offices. Follow the relevant instructions to use the IDEV online reporting procedure. IDEV: Submit the data via electronic online forms. IDEV helps you to reduce your workload. Together with the request to report your data, you will usually receive an access code and a password for the IDEV online procedure (Internet data collection in the network). You can use this to report the data.

Alternatively, you can send the data as a data package (XML format) to the common data entry point for official statistics ("CORE"). To do this, you must register once. The Federal Statistical Office evaluates the data, compiles the statistics and publishes them.
