Teaser	If you need financial support for your school education or your studies, you can apply for a temporary low-interest education loan under certain conditions.
Volltext	<p>The education loan supports you in financing your school education or studies by providing you with financial relief so that you can concentrate on completing your school or university education.</p> <p>The loan is temporary and low-interest.</p> <p>Your income and assets or those of your parents or your spouse or partner are basically irrelevant for the approval of the education loan. However, you do not have a legal claim to the approval of the education loan. You can claim the loan even if you are already receiving BAföG or a KfW student loan.</p> <p>**Amount and duration of funding**</p> <p>The education loan can be granted as a loan up to a maximum of EUR 7,200 per training period. It can be taken out for a maximum of 24 months per training period.</p> <p>For studies, the loan can initially only be granted until the end of the 12th university semester. After the end of the 12th university semester, you must prove when submitting your application that you have been admitted to the final examination and that you will be able to complete the training within the possible funding period (24 months).</p>

Modul

Sachverhalt

For school-based training, an education loan can only be approved for the last 24 months of training. In addition, you must complete your training with a vocational qualification or have previously acquired a vocational qualification. The training must be eligible for support according to the BAföG.

****Studying abroad****

You can also get an education loan if you are studying at a foreign university. The foreign educational institution must be recognized as equivalent. The Federal Office of Administration will check whether this is the case for you.

Your nationality is irrelevant when applying for an education loan. What is important is that the residence title you have been granted does not prevent you from applying. The Federal Office of Administration will also check this for you.

****Disbursement and repayment****

The KfW Bankengruppe will pay you the Student Loan in monthly instalments of EUR 100.00, EUR 200.00 or EUR 300.00 each. You cannot change the amount of the instalment you have applied for during the payment period you have applied for. However, you can receive an advance payment if you have a corresponding need, for example, for cost-intensive work materials. The down payment can be up to EUR 3,600 if the total of 24 monthly instalments and EUR 7,200 is not exceeded.

Repayment begins 4 years after the due date of the 1st payment. Repayment is made in monthly instalments of EUR 120.00.

You can repay the loan in full or in part at any time without incurring additional costs or fees.
Interest

Interest is charged for the duration of the loan. The interest rate is variable and is based on the 6-month

Modul

Sachverhalt

EURIBOR (European Interbank Offered Rate). It is fixed on 1 April and 1 October for half a year in each case. The nominal interest rate includes an administrative surcharge of one percent per year.

You can apply for an education loan in writing or online at the Federal Office of Administration (BVA).
