Sachverhalt

If you receive care allowance, you will receive a counseling visit at home every six months - for care degree 2 or 3 - or every quarter - for care degree 4 or 5. You decide who carries out this visit: You choose a care service or a recognized counseling center and make an appointment. The law prescribes the counseling visits. These are to ensure that you are well cared for at home. You and your caregiver receive nursing tips and support at these appointments. In long-term care insurance, the long-term care insurance fund pays for the costs of the counseling visits and settles these directly with the service provider.
