Volltext	<p>The exercise of a craft trade in Germany is subject to the special legal provisions of the Crafts Code (HwO). Which occupations belong to the craft or to the craft trade, results from Annexes A, B1 and B2 of the HwO. Craftsmen from the other member states of the European Union (EU), another contracting state to the Agreement on the European Economic Area (EEA) and Switzerland who wish to carry out temporary work in Germany (cross-border provision of services) must observe the following regulations.</p> <p>**Crafts and trades similar to licences**</p> <p>Self-employment in a craft or craft similar to a craft that is not licensed in Annexes B1 and B2 to the Crafts Code does not require a specific professional qualification in Germany. Foreign companies which do not have a commercial presence in Germany can therefore carry out this work without having to prove certain requirements to the chambers of crafts or without having to notify the chambers of crafts beforehand of the activity.</p> <p>**Crafts subject to approval**</p> <p>Nationals of one of the above-mentioned countries who do not have a commercial presence in Germany are permitted to provide services temporarily and occasionally in a craft subject to approval listed in Annex A to the Crafts Code under certain conditions.</p>

Modul

Sachverhalt

The practice of a craft subject to authorisation must be reported to the Chamber of Crafts.

****Special****

If you wish to provide services in Germany for the first time as a chimney sweep, optician, hearing aid acoustician, orthopaedic technician, orthopaedic shoemaker or dental technician, your professional qualification can be checked before the service is provided if, taking into account the specifically intended activity, there is a serious risk to the health or safety of the service recipients if you are insufficiently qualified.

Services in the abovementioned trades may only be provided if the competent Chamber of Crafts has either informed that no verification of the professional qualification is intended or if a sufficient professional qualification has been established.

****Tip:**** On the website of the European Commission you will find a "Regulated Professions Database", where you can search for regulated professions (also by country).

****Special****

For services in the chimney sweep, optician, hearing aid acoustician, orthopaedic technician, orthopaedic shoemaker and dental technician trade, you should be informed of the result within one month of receipt of the notification and the complete documents. In the event of a delay, the competent Chamber of Crafts will inform you of the reasons for the delay and of the timetable for a decision. In this case, the result of the inspection must be communicated to you at the latest within 2 months of receipt of the notification and the complete documents.

If the verification reveals that there is a substantial difference between your professional qualification and the training required in Germany, the competent Chamber of Crafts must, within one month of being informed of the result of the examination, give you the

Verfahrensablauf	<p>You must submit the notification in writing to the competent authority. It must be handwritten or accompanied by a qualified electronic signature.</p>

Modul

Sachverhalt

If the aforementioned conditions are met, the service may be provided immediately after notification. The competent authority will provide you with an acknowledgement of receipt stating whether the conditions for providing the service are met.

Services in chimney sweeps, opticians, hearing aid acousticians, orthopaedic technicians, orthopaedic shoemakers and dental technicians may only be provided if the competent Chamber of Crafts has either informed you that no re-examination of the professional qualification is intended, or if a sufficient professional qualification has been established.

****Important Notice****

Failure to comply with the duty to notify constitutes an administrative offence (according to § 118 para. 1 no. 7 HwO in conjunction with § 10 EU/EEA HwV).

Bearbeitungsdauer

You must notify you of the intended provision of services before taking action for the first time. The acknowledgement of receipt from the Chamber of Crafts should be given to you within one month after receipt of the notification and the complete documents. If there are doubts as to the authenticity of the documents submitted, the authenticity may be verified by enquiring with the competent authority or body of the country of origin. The expiry of the deadline is suspended until then. The notification must be repeated every 12 months since the last notification, as long as the further provision of services is intended. For this "repeat notification" a simple letter without attaching documents is sufficient. You must notify us immediately in writing of any significant changes in circumstances.
