Teaser	The waste disposal of private households and thus also of problematic substances is the responsibility of the districts and independent cities as public waste disposal providers.
Volltext	<p>Recyclable materials are recyclable waste such as paper, cardboard and packaging made of glass, plastics or metal. The dual systems are responsible for the disposal of packaging within the meaning of the Packaging Act. Other recyclable materials that are not packaging are regularly disposed of by the public waste disposal authorities (districts and independent cities). Collections of recyclable materials can also be carried out by commercial or non-profit providers (commercial or non-profit collection). As a rule, various disposal systems (delivery and/or collection systems) are set up for disposal:</p> <ul style="list-style-type: none"> • Container collection (e.g. igloos for used glass or paper) and/or at the recycling depots • Yellow bag/ yellow bins (for lightweight packaging) • if necessary by means of special recycling bins

	<ul style="list-style-type: none"> • for large, non-household quantities via private disposal companies
Erforderliche Unterlagen	Please ask the public waste disposal authority responsible for you which documents you need to submit.
Voraussetzungen	Consultation with the public waste disposal authorities required
Kosten	<p>Consultation with the public waste disposal authorities required</p> <p>As for waste disposal as a whole, there is no nationwide uniform fee regulation for the disposal of recyclable materials by the districts and independent cities. Information on the costs incurred can be found in the respective waste fee statutes of your public waste disposal provider as well as on the homepages of the commercial waste disposal companies.</p> <p>Product responsibility applies to packaging. The disposal of packaging according to the Packaging Act is already paid for by the consumer when purchasing the product.</p>
Verfahrensablauf	Consultation with the public waste disposal authorities required
Bearbeitungsdauer	individual

Kurztext	<ul style="list-style-type: none"> • Disposal of recyclable materials • The collection and disposal of packaging according to the Packaging Act is carried out by the dual systems • The collection and disposal of other recyclable materials is carried out regularly by the public waste disposal authorities.

Modul	Sachverhalt
	<ul style="list-style-type: none"> • Regulations for the disposal of recyclable materials (except packaging) are laid down in the individual waste disposal statutes and fee statutes of the public waste disposal authorities. • Responsible: public waste disposal authorities (the respective district or independent city of the place of residence) as well as the dual systems for the disposal of packaging according to the Packaging Act
Ansprechpunkt	<p>Contact the administration of your municipality/city or the waste association to find out how and where the recyclable materials are collected. In many cases, you can also look up this information on the respective website via a "waste ABC".</p> <p>The dual systems are responsible for the collection of packaging waste. They have commissioned a private waste disposal company or the public waste disposal authority with the collection on site.</p> <p>Most municipalities and districts issue waste calendars in which the collection dates and the collection methods are indicated.</p>
