the immigration authority responsible for your place of residence.

The conditions for renewal are the same as for grant. In particular, you should continue to work in the IT industry and have a certain salary.

When you first issued your residence permit, the Federal Employment Agency gave its consent. If the validity of the consent has expired, it must be issued again for the extension of your residence permit.

You may have been obliged to attend an integration course when you first issued your residence permit. If this is the case, this must be taken into account when extending your residence permit. If you have not yet taken part in an integration course, the Foreigners' Registration Office may reject your application for an extension of your residence permit. If you have not yet completed the integration course, the residence permit will only be extended by one year at a time until you successfully complete it or provide proof that your integration into social life has taken place elsewhere.

In the event of an extension, your residence permit will be limited again. The duration of the time limit depends on the duration of your employment contract or the period of validity of the approval of the Federal Employment Agency.

As a rule, the residence permit cannot be extended if this was already excluded when the residence permit was issued or last extended.
