foreign professional qualification recognised. In the recognition procedure, the competent authority compares your professional qualification from abroad with the German professional qualification and checks the equivalence. The equivalence of the professional qualification is an important prerequisite for the granting of state permission.

In addition to the equivalence of the professional qualification, you must meet other requirements for the granting of the permit. Further requirements are, for example, sufficient German language skills and health suitability.

If your professional qualification does not come from the EU, EEA or Switzerland, other regulations apply.

You can also apply for the procedure from abroad.

Erforderliche Unterlagen

The competent authority will tell you which documents you need to submit. Important documents are in general:

- Proof of identity (identity card or passport)
- German-language curriculum vitae in tabular form with your education and professional activities
 - officially certified copy of your proof of formal qualifications
- Proof of your relevant professional experience as a masseuse and medical lifeguard or masseur and medical lifeguard
 - Proof of further relevant knowledge for working as a masseuse and medical lifeguard or masseur and medical lifeguard
- Extract from the criminal record or certificate of good conduct from your country of origin as proof of your reliability (this proof must not be more than 3 months old at the time of application)
- Medical certificate of your health (The proof can be from an authority in your country of training. This certificate must not be more than 3 months old at the time of application.)

Modul

Sachverhalt

The competent authority will inform you which documents you must submit in the original or as copies.

If your documents are not available in German, you must submit German translations of your documents. The translations must be made by translators who are publicly appointed or authorised.

Voraussetzungen

- You have a professional qualification as a masseuse and medical lifeguard and medical lifeguard from the EU, EEA or Switzerland.
 - They are suitable for health. (This means that you can work mentally and physically as a masseuse and medical lifeguard or masseur and medical lifeguard.)
 - They are reliable for work as a masseuse and medical lifeguard and medical lifeguard and have no criminal record.
 - You have the necessary knowledge of German for the job. This is usually level B2 according to the Common European Framework of Reference for Languages.

Kosten

The procedure costs money. The competent authority will inform you about the costs. The costs generally depend on the effort for processing.

In addition, additional costs may arise (e.g. for translations, certifications or compensatory measures). These costs vary from person to person.

Verfahrensablauf

****Equivalence assessment****

You submit an application for permission to use the professional title "masseuse and medical lifeguard" or "masseur and medical lifeguard" to the competent authority. The competent authority will then check whether you meet all the requirements. An important prerequisite is the professional qualification. The competent authority compares your professional qualification from abroad with the German professional qualification as a masseuse and medical lifeguard and medical lifeguard. The competent authority will check whether your professional qualification is equivalent. The professional

qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.

****Possible results of the test****

If your professional qualification is equivalent, your foreign professional qualification will be recognised. The authority can confirm the result to you in writing. You still have to meet the other requirements and prove your language skills. Then you will receive permission to use the professional title of "masseuse and medical lifeguard" or "masseur and medical lifeguard".

If the competent body identifies significant differences, you can compensate for the differences through your professional practice and other knowledge and skills (lifelong learning). You must prove your professional experience. Knowledge and skills must be certified by an authority in your country of origin.

However, it may be that this knowledge is not sufficient. You will then not be able to compensate for the essential differences. Your foreign professional qualification will then not be recognised.

However, the competent authority will tell you the essential differences and why you cannot compensate for the essential differences through your professional practice. You are then not allowed to work as a masseuse and medical lifeguard or masseur and medical lifeguard. However, the competent authority offers you to complete an adaptation period or take an aptitude test as a compensatory measure. If you successfully complete this measure, you will be allowed to work in the profession.

****Adaptation period or aptitude test****

If your professional qualification is not equivalent, you can choose between an aptitude test and an adaptation period of up to three years. The aptitude test refers to the main differences in your professional

qualification. The aptitude test is a practical test. The contents and the exact procedure of the examination are regulated by law. If you complete the adaptation period or pass the aptitude test (and meet all other requirements), you will receive permission to use the professional title of "masseuse and medical lifeguard" or "masseur and medical lifeguard".

****Remedy****

You can take legal action against the decision of the competent authority. The decision will then be reviewed. Details can be found in the information on the right of appeal at the end of your decision. We recommend that you first talk to the competent authority before taking legal action against the decision.

Bearbeitungsdauer

The competent authority will confirm that your documents have been received after a maximum of one month. The competent authority will inform you if documents are missing. If the documents are complete, the procedure takes a maximum of 4 months.

Frist

None. Sometimes documents are still missing in the procedure. The competent authority will then inform you by when you must submit the documents.

Hinweise

• ****Freedom to provide services****

If you only want to work temporarily and occasionally independently as a service provider in Germany, you do not need a state permit to use the professional title. However, special conditions apply: You must report your work to the competent body before the first activity. The competent body will inform you exactly about the procedure

• ****Equivalence Notice****

In the licensing procedure, equivalence is also checked (recognition procedure). You can apply for a separate notification for the result of the examination.
