Teaser	You need a permit to operate a mobile shooting range.
Volltext	If you operate a mobile facility that is used for shooting sports or other shooting exercises with firearms, the testing of firearms or shooting with firearms for amusement (shooting range) or would like to significantly change its nature or in the way it is used, you need a permit from the responsible weapons authority. No permission is required for shooting ranges where shots are fired indoors exclusively for the purpose of testing firearms or ammunition by weapons or ammunition manufacturers, by weapons or ammunition experts or by scientific institutions. In the case of mobile shooting ranges, a one-time permit before the first installation is sufficient. The shooting range shall be inspected by the competent authority with regard to safety requirements before it is put into operation for the first time. For this purpose, an expert opinion of a recognized shooting range expert may also be obtained at the expense of the instigating person.
