Sachverhalt

destination country, can use the list to enter the country without a visa as an exception. For example, the list of school pupils allows pupils to take part in a school trip even if an asylum procedure has not yet been completed.

If the teacher presents the list of pupils at the border, the border control authorities of the Member States must allow the pupils listed to enter and leave the country without a visa. Pupils simply show their passport or identity card when crossing the border.

Student list as a substitute for a passport

If a student does not have a passport or other valid travel document, the EU form is also recognized as a passport substitute when crossing the border, provided that the list

- is accompanied by a photo of the student and
- has been certified and approved by the local immigration authority.

With the approval, the foreigners authority confirms that all pupils listed are resident in Germany and are authorized to return.

The student list contains the following information:

- Names, dates of birth and addresses of the pupils,
- the destination and duration of the school trip,
- if applicable, photos of pupils who do not have a passport.

It is advisable to ask for further information on the procedure in the specific case before the trip. Please contact the embassy of the country of travel and the local immigration office.

Erforderliche Unterlagen

- Proof of affiliation to a general education school, if applicable
- If applicable, proof of the class trip through booking data
- If used as a passport replacement: biometric photo
