Depending on the municipality's offer, you may be able to dispense with filling out the registration form and request the data in the form of a pre-filled registration form from the registration office. You then only need to check the data on the corresponding printout, correct it if necessary and then confirm the accuracy of the data by signing it. From 01.05.2022, the registration authority is obliged to use this procedure.

Family members and members of a civil partnership should use one registration form if they move from a shared home to a new shared home on the same day.

Once you have registered, you will receive a confirmation of registration.

If the office responsible for your new place of residence has opened Internet access for registration, you can also use this access to submit the required information using a qualified electronic signature.

You cannot use this service if you are

- are moving from abroad or
- use a pseudonym instead of your name in your electronic signature.

In these cases, you must register as described above.
