Volltext	Socio-educational family assistance is an educational aid to which legal guardians are entitled if an education in accordance with the child's best interests is not guaranteed and the assistance is suitable and necessary for his or her development. Through intensive care and accompaniment, it is intended to support families in their educational tasks, in coping with everyday problems, in resolving conflicts and crises as well as in contact with offices and institutions and to help them help themselves. Socio-educational family support takes place directly in the family and in their home. The addressee is the entire family. The family receives support in everyday questions and in the form of pedagogical processing of problem situations. For this purpose, a socio-educational specialist regularly comes to the family for several hours a week. The design of the aid is based on the concrete everyday life and needs of the family. It refers to educational issues, support in e.g. school matters, as well as to all other problems and challenges of the family, or its members, e.g. the housing situation and finances, daily and weekly structure, illnesses, relationships of family members with each other and in the social environment.
