Teaser	Are you carrying out deep drilling or other earthworks? In certain cases, the authorities may require you to stop or remove the excavation.
Volltext	If you carry out a so-called earth excavation, the competent authority can order you to stop or remove it. Earth excavations are boreholes or other earthworks that reach so deep into the ground that they can affect the movement or quality of the groundwater. The order applies to planned earth excavations and those already reported to the authority, as well as unintentional groundwater development.
