Volltext	International adoption is divided into 2 aptitude tests: The general aptitude test at the local adoption agency and the country-specific aptitude test at an independent international adoption agency or the central adoption office of the state youth welfare office. The country-specific suitability test checks whether you are suitable to adopt a child from a particular country. The suitability test is carried out by an independent international placement agency or the central adoption office of the State Youth Welfare Office.
Erforderliche Unterlagen	Different documents are required for applications abroad, depending on the child's country of origin. The specialists will provide you with detailed information about this.
