Teaser	If you want to drive into an environmental zone, you need a fine dust sticker / environmental badge. Here you will find information.
Volltext	Air pollution control plans are in place for areas with poor air quality. Air pollution control plans contain measures to improve air quality. Environmental zones are one possible measure of such air pollution control plans. Environmental zones reduce particulate matter and nitrogen dioxide pollution. Vehicles with high pollutant emissions are not allowed to drive in environmental zones. If you want to drive your vehicle in such an environmental zone, you must purchase a fine dust sticker / environmental badge. The badge is available in three different colours, each of which is assigned to a pollutant group. The classification of your vehicle into one of the pollutant groups depends on the emission code numbers. These can be found in the vehicle documents.
Erforderliche Unterlagen	Vehicle registration document (for older vehicles) or registration certificate Part I (for newer vehicles)
Voraussetzungen	In order to obtain an environmental badge, your vehicle must meet the criteria of emission groups 2, 3 or 4. You cannot obtain a sticker for vehicles in emission group 1. These are:

Hinweise	If you are planning to drive into an environmental zone, try to buy a fine dust sticker / environmental badge at an early stage. If there are delays and you do not have a fine dust sticker / environmental badge, you are not allowed to drive into the environmental zone.
Rechtsbehelf	
Kurztext	
Ansprechpunkt	The stickers are issued by the registration office of your district or your independent city (main residence) as well as by all bodies that are authorized to carry out the emission test. In addition to the inspection centres of the inspection organisations (e.g. TÜV, Dekra), these are also many automotive workshops.
