Volltext	The legally protected professional titles of architect, interior designer, landscape architect, urban planner and urban architect may only be used by those who are entered in a professional directory maintained by the Hessen Chamber of Architects and Urban Planners (so-called list of architects). With the registration as an architect, a comprehensive building submission authorization is acquired, with the registration as an interior designer a profession-specific building submission authorization. This is necessary in order to be able to act as draftsman for the construction or modification of structures and to obtain a building permit.
