Teaser	You can take advantage of health check-ups for your children. This means that a child's general state of health and age-appropriate development are regularly examined by a doctor. Possible problems or abnormalities can be detected and treated at an early stage.
Volltext	<p>The statutory health insurance funds cover the costs of medical screening examinations for insured children, also known as U-examinations. Under the Hessian Child Health Protection Act (Hessisches Kindergesundheitsschutz-Gesetz), U examinations are mandatory in Hesse up to the age of six. They serve the early detection of illnesses that endanger their physical, mental or psycho-social development. Up to the age of six, this also includes early detection examinations for dental, oral and jaw diseases, e.g. determining the risk of tooth decay and advice on nutrition and oral hygiene.</p> <p>The Federal Joint Committee regulates the content, type and scope of the examinations in the guidelines for the early detection of diseases in children (U1 to U9).</p>
Erforderliche Unterlagen	You will need your child's electronic health card and the child examination booklet ("yellow booklet"), which you will receive directly after the birth.
