The Trade Register, a register of local businesses, is kept by the local authorities. There is an obligation to notify the registration, re-registration and de-registration of a trade, a branch or a dependent branch. The transmission of the simple information contains the 3 basic data name/company, address and activity of the trader and is transmitted on request without further checks.

Extended information data, such as private residence, date of birth, start and, if applicable, end of activity, may be transmitted to non-public bodies (e.g. private individuals) provided that the person requesting information demonstrates a credible legal interest (§ 14 para. 8 GewO). In addition to the conclusive submission of the person requesting information (information as to why extended data e.g. residential address is required, etc.), the submission of relevant documents (e.g. purchase contract, reminder) is also required.
