bodies designated (i.e. notified) by the competent authority.

The "Waste Specialist Module" of the Bund/Länderarbeitsgemeinschaft Abfall (LAGA) regulates the requirements for the competence and notification of inspection bodies (measuring and testing centres) within the framework of the KrWG and the aforementioned ordinances issued in this context. For example, requirements for the technical competence of the investigating bodies are described on the following points:

- Staffing - Guarantee of technical equipment requirements
- Internal and external analytical quality assurance via quality management
- Ensuring the guarantee of the investigations qualitatively and quantitatively according to parameters and assignment values of the legal regulations
- Employment of samplers with professional qualifications

Erforderliche Unterlagen

The applicant must submit, inter alia, the following application documents:

- Curriculum vitae, certificates of vocational training, proof of previous professional activity of the laboratory manager and his representative
- Information on the number and qualifications of employees
- Information on technical equipment
- Information on whether the inspection body is recognised in other countries (proof of accreditation or approval notices from approval authorities of other countries)
- Proof of successful proficiency test participation

Existing accreditations according to DIN EN ISO/EC 17025 are considered as proof of competence, provided that they are valid and applicable and complete for the requested examination task.
