Teaser	Do you have a mental illness or live with a person with a mental illness? The wide range of assistance is designed to help you participate in social life again.
Volltext	The aim of integration assistance is to prevent a threatening mental disability or to eliminate or mitigate the consequences of a disability. Your participation in life in the community is to be maintained or restored after a longer stay in hospital or longer isolation. You will find support in coping with daily life. This includes in particular • housing • finances • household management • the organization of leisure time • the promotion of private contacts and hobbies • visits to public offices (preparation and support), if not the task of a legal guardian • Parenthood The period of care is usually for a longer period of time and is individually designed. The costs for the services are covered by the responsible institution for integration assistance if an individual need for support is determined. If necessary, income and assets will be taken into account.
Erforderliche Unterlagen	An informal application to the competent authority is sufficient. They will ask you to use a form and to submit further documents.
