Teaser	If you are the owner or operator of public telecommunications networks and wish to lay or modify telecommunications lines in a public road, you can obtain consent for the shared use of traffic routes under certain conditions.
Volltext	If you are the owner or operator of a telecommunications line or a telecommunications network serving public purposes, you require the consent of the landowner for the relocation or modification of this infrastructure. If the property is a public traffic route, you must submit the application to the road owner. With this approval, you can obtain any other necessary permits. Once you have obtained all the necessary permits, you can generally start the construction work. Please note any conditions, ancillary provisions and agreed deadlines.
Erforderliche Unterlagen	<ul style="list-style-type: none"> • Application in written or electronic form • The application must contain information on the location of the relocation or modification of telecommunications lines, in particular which road and road components are affected, stating the network node and mileage • The application must contain information on the type and depth of installation • The application must be accompanied by a route plan, usually at a scale of 1:1000
Voraussetzungen	The applicant must be the owner or operator of a public telecommunications network or a telecommunications line serving public purposes. The structural implementation for the laying or modification of the telecommunications line takes place in a public road.

Modul	Sachverhalt
Kosten	Administrative costs are incurred in accordance with the Fees Act for the State of North Rhine-Westphalia (Gebührengesetz NRW, GebG NRW) and the General Administrative Fees Regulations (AVerwGebO NRW).
Verfahrensablauf	<p>As the owner or operator of public telecommunications networks or telecommunications lines serving public purposes, you apply for approval to lay cables in the public road, submitting complete application documents. The public highway authority examines the application and, if necessary, grants approval subject to conditions and instructions by means of a decision in accordance with the Telecommunications Act (TKG).</p> <p>Under certain circumstances, an on-site meeting is required before the decision is issued.</p> <p>Under certain circumstances, fictitious approval may also apply, i.e. approval is deemed to have been granted after a period of 3 months. The applicant is obliged to bear the administrative costs.</p>
Bearbeitungsdauer	Depending on the difficulty and scope of the application, the average processing time is 2 to 4 weeks.
Frist	The application must be submitted in good time before the start of the construction project.
weiterführende Informationen	Information on the modernized Telecommunications Act on the website of the Federal Ministry: bmvi.de
Hinweise	If application documents are subsequently submitted or amended, the deadlines for processing by the infrastructure manager and, in particular, the deadlines for fictitious approval begin anew.
Rechtsbehelf	
Kurztext	<ul style="list-style-type: none"> - Laying or modification of telecommunications lines - OZG service broadband expansion - Laying and modification of telecommunications lines, approval in accordance with § 127 TKG
