Teaser	Children of compulsory school age can be postponed for one year by the school management for serious health reasons. You can apply for this when registering for primary school.
Volltext	In North Rhine-Westphalia, every child who has reached the age of six by the beginning of September 30th is required to attend school on August 1st of the same year. All children who turn six on October 1 or later are not required to attend school until the following calendar year. As parents, you have the option of applying for deferral from school attendance if it is to be expected that the child will not be able to meet the requirements of Year 1 of elementary school for significant health reasons or if there is a risk of significant health problems. In NRW, children of compulsory school age can only be deferred for one year. The decision is made by the school management on the basis of the school doctor's report. You as parents must be consulted. School administrators make the decision on deferral not only on the basis of the school doctor's report, but also take into account other specialist medical or therapeutic opinions provided by you, which contain significant evidence with a proven health reference for a deferral. Preventative aspects may also be taken into account. As a rule, the period of deferral is not counted towards the period of compulsory schooling.
Erforderliche Unterlagen	• School medical certificate

Modul	Sachverhalt
	• Further documents such as specialist medical or specialist therapeutic statements that you provide to support your application
Voraussetzungen	• Determination that your child does not meet the requirements of year 1 of elementary school for significant health reasons
Kosten	none
