Teaser	Here you will find information on scientific research projects in schools.
Volltext	Empirical studies or surveys that are to be carried out by individuals and institutions in schools require the approval of the respective school management. The decision on approval is made by the school management after the school conference has been involved. If the project is of particular or supra-local importance, the higher school supervisory authority must be informed.
Erforderliche Unterlagen	The requests should contain the following information and documents Documents should include:- a description of the research project,- samples of all documents intended to be used,- information on the expected use of teachers and pupils,- the timetable for the study or survey,- in the case of requests from the higher education sector, a statement from the relevant university lecturer, in the case of requests from study seminars, a statement from the subject leader and the head of the seminar supporting the content and form of the project.
Voraussetzungen	Consent can only be granted if- there is no unreasonable burden on teaching,- teachers and administrative staff of the school are not impaired in the performance of their duties,- the project relates to the reality of teaching and education in schools and lessons,- the type and content of the investigation or survey does not interfere with the rights of teachers, pupils, legal guardians or other persons worthy of protection,- the anonymity of the persons concerned is preserved; if questionnaires are used, they must be returned in sealed envelopes;- the names and addresses of the pupils and their legal guardians are
