| Bearbeitungsdauer            | A general processing time cannot be specified. This varies from authority to authority. On average, you can expect 10-15 working days once the application is complete.                                                                                                                                                                                                                                                                                                                                             |
| Frist                        | There are no statutory deadlines. As soon as you intend to keep a dangerous dog or a dog of a certain breed, you generally have to apply for a permit in advance. When the dog is actually taken into the household, the permit should already have been issued. In the case of dangerous dogs, proof of expertise and reliability must be provided before the dog is taken into the household. Deadlines for the subsequent submission of documents for an incomplete application vary depending on the authority. |
