Teaser	If you want to discharge wastewater from a small wastewater treatment plant into a body of water, you can apply for a permit under water law from the responsible water authority. In some cases, this can only be granted in a formal administrative procedure.
Volltext	<p>If you want to discharge pre-treated wastewater from a small wastewater treatment plant into a body of water, you need a permit under water law.</p> <p>A small wastewater treatment plant is a wastewater treatment plant from which less than eight cubic meters per day of wastewater from households and similar wastewater is discharged.</p> <p>The wastewater from the small wastewater treatment plant can seep away or be discharged into an above-ground body of water.</p>

Modul

Sachverhalt

Surface waters are rivers, lakes, canals, streams, ditches and ponds.

The authority may have to carry out a formal administrative procedure. This gives interested parties the opportunity to comment on the project. To this end, the authority publishes the project and, if necessary, holds an oral hearing.

The permit specifies the type and extent of use. It may be linked to conditions and ancillary provisions. In contrast to an authorization, a permit can be revoked by the authorities.

Erforderliche Unterlagen

- Application form
- Documents for the small wastewater treatment plant (depending on availability) Declaration of performance, building authority approval Drawings, dimensioning documents Proof of tightness Maintenance logs
- For infiltration Proof of infiltration Hydrogeological report Illustration, dimensioning documents of the infiltration system
- For discharge into a surface water body Hydrological report Statement and consent of the watercourse owner or person responsible for maintenance
- Site plan, extract from cadastral map
- Construction drawings
- Consent of affected property owners
- Landscape conservation plan, if applicable
- Technical contribution to the Water Framework Directive, if applicable

Voraussetzungen

- The requirements specified in the Waste Water Ordinance are complied with.
- The discharge is compatible with the requirements for water characteristics and other legal requirements.

Kosten

Verfahrensablauf

You can apply for a permit to discharge pre-treated wastewater from a small wastewater treatment plant into a body of water from your local water authority. The general procedure is as follows:

- Send your application for a permit with the required

Modul

Sachverhalt

documents to the responsible water authority.

- This checks that your application and documents are complete and contacts you if any information or documents are missing, examines your application from a water management and water law perspective and involves other authorities if necessary.
- The competent authority will publicly announce the project.
- If necessary, the competent authority will hold an oral hearing with the parties involved.
- You will receive a permit or a notice of refusal
- You will also receive a fee notice.
- You pay the fee.

Bearbeitungsdauer

The processing time depends in particular on the quality and scope of your application and the documents.

Frist

There is no statutory deadline. Apply for the permit in good time before starting your project.
