Teaser	If you want to work as an expert in the field of high-pressure gas pipelines, you must be recognized as an expert by the competent body.
Volltext	<p>Experts inspect high-pressure gas pipelines and their associated facilities serving the public supply prior to construction to ensure that the planned pipeline/facility complies with the quality requirements of the High Pressure Gas Pipeline Ordinance. Furthermore</p> <p>High-pressure gas pipelines must be inspected by an expert or a qualified person for leaks, strength and the presence of the necessary safety equipment before they are put into operation.</p> <p>A further inspection is then usually carried out within one year of commissioning.</p> <p>If you want to work as an expert in the field of high-pressure gas pipelines and you are</p> <p>belong to an accredited inspection body or</p> <p>have the certification of an accredited certification body,</p> <p>you also need the recognition of the competent body.</p>

Modul

Sachverhalt

You can be recognized as an expert for high-pressure gas pipelines serving the public supply if you are an expert of

- of a technical inspection organization,
- a materials testing institute under public law or
- of the German Association of Gas and Water Experts (DVGW).

However, as a DVGW expert, you may only perform tests on compressor, control and metering systems.

Erforderliche Unterlagen

- Certificate of successful completion of studies in a technical or scientific field at a university, college or university of applied sciences.
 - For proof of personal reliability:
 - If you are resident in Germany, you will generally need a certificate of good conduct for presentation to an authority (document type O).
 - If you are resident abroad, you will need documents from your home country proving that you have the personal reliability to perform the requested service.
- Certificate as proof of training as an expert in accordance with DVGW worksheet G 100 or proof of membership of an accredited inspection body (e.g. TÜV, MPA or ZÜS) for checking the technical safety of high-pressure gas pipelines in accordance with the high-pressure gas pipeline ordinance
 - Declaration of the employer(s) that the expert person to be recognized is in active professional life and that he/she is free from instructions of his/her superior or employer in the performance of his/her inspection activities,
 - valid proof of liability insurance, either personal or related to the inspection organization, which protects the expert from possible claims for damages arising from his/her expert activities (personal injury, property damage and financial loss)
 - Proof of regular participation in further training and
