Teaser	If you want to drive into an environmental zone, you need a fine dust sticker/ environmental badge. Here you will find information.
Volltext	For areas with poor air quality, there are air pollution control plans. Air pollution control plans contain measures to improve air quality. Environmental zones are a possible measure of such air pollution control plans. Environmental zones reduce particulate matter and nitrogen dioxide pollution. Vehicles with high pollutant emissions are not allowed to drive in environmental zones. If you want to drive your vehicle in such an environmental zone, you must purchase a fine dust sticker/ environmental badge. The badge is available in three different colours, each of which is assigned to a pollutant group. The classification of your vehicle in one of the pollutant groups depends on the emission key numbers. These can be found in the vehicle documents.
Erforderliche Unterlagen	Vehicle registration document (for older vehicles) or registration certificate Part I (for newer vehicles)
Voraussetzungen	In order to receive an environmental badge, your

Modul	Sachverhalt
	vehicle must meet the criteria of pollutant groups 2, 3 or 4. You cannot obtain a sticker for vehicles in pollutant group 1. These are • Petrol engine without regulated catalytic converter and • older diesel vehicles with Euro 1 emission standard or worse.
Kosten	Depending on the city or district, AU workshop or testing organization: usually EUR 5.00 - 8.00
Verfahrensablauf	
Bearbeitungsdauer	none In most cases, you will receive the badge immediately.
Frist	none
weiterführende Informationen	
Hinweise	If you are planning to drive into an environmental zone, make an effort to buy a fine dust sticker / environmental badge at an early stage if possible. If there are delays and you do not have a fine dust sticker / environmental badge, you are not allowed to drive into the environmental zone.
Rechtsbehelf	
Kurztext	
Ansprechpunkt	The badges are issued by the registration office of your district or your district-free city (main residence) as well as by all bodies that are authorized to carry out the exhaust gas test. In addition to the testing centres of the monitoring organisations (e.g. TÜV, Dekra), these are also many automotive workshops.
