Teaser	The construction and operation of plants require an immission control permit if they are likely to cause particular damage to the environment or endanger the general public.
Volltext	If you want to build and operate a plant which, due to its nature or operation, is particularly likely to cause harmful environmental effects or otherwise endanger the general public or the neighborhood, to significantly disadvantage or significantly harass, you need a permit from the competent authority. This also includes stationary waste disposal facilities for the storage or treatment of waste.
Erforderliche Unterlagen	
Voraussetzungen	https://www.gesetze-im-internet.de/bimschg/_6.html https://www.gesetze-im-internet.de/bimschg/_6.html
Kosten	
Verfahrensablauf	The approval procedure shall be accompanied by a written application accompanied by the drawings, explanations and other documents necessary to verify the conditions for approval. If the application is complete, it may be complete. to make the documents publicly known and then to interpret them for one month. In simplified approval procedures or when public participation is not carried out, there is no public interpretation and no discussion date takes place. At the latest at the same time as the public announcement of the project, the approval authority shall at the same time invite the authorities to be

Modul	Sachverhalt
	involved to submit their opinion on the permit conditions within one month. If there are any objections, they will be discussed with you and those who raised the objections in a public meeting. Where the approval authority has identified all the circumstances relevant to the granting of an authorisation, a decision shall be taken on the application. The approval notice must be substantiated in writing and will be sent to you and the persons who have raised objections. The notification of the approval notice to objectors may be replaced by a public announcement.
Bearbeitungsdauer	
Frist	The operator shall have it approved by the competent authority before the installation and operation of the installation.
