Teaser	<p>Would you like to work as a nursing assistant in Germany? Find out about the requirements here.</p>
Volltext	<p>The profession of healthcare and nursing assistant is regulated in many federal states in Germany. This means that in order to work as a healthcare and nursing assistant without restriction, you need a state permit.</p> <p>With this permit, you can use the job title and work in the profession without restriction.</p> <p>The legal regulations and requirements of the profession differ from state to state.</p> <p>Even if you have a professional qualification from abroad, you can obtain permission to use the professional title from the competent body (an authority).</p> <p>To do this, you must have your foreign professional qualification recognized. In the procedure, the competent authority compares your foreign professional qualification with the German professional qualification and checks the equivalence. Equivalence is an important prerequisite for obtaining a state permit.</p>

In addition to the professional qualification, you must also meet other requirements. For example, you must be in good health and be able to speak German.

It is important where you completed your training. The procedure for professional qualifications from the European Union (EU), the European Economic Area (EEA) and Switzerland may be different from the procedure for professional qualifications from third countries. Third countries are all countries that do not belong to the EU, the EEA or Switzerland.

You can also submit the application from abroad.

Applicants must also provide credible evidence that they intend to practice the profession in the state of Saxony-Anhalt.
