Verfahrensablauf

After receiving all the necessary documents, the authority of dispatch checks whether the notification has been carried out correctly, sends the documents to the authority of destination and all transit country authorities concerned within three working days if the assessment is positive and informs the notifier accordingly. However, the authority of dispatch may refuse to forward the documents if it requests additional documents or raises an objection to the notification within the period of three working days.

No later than three working days after receipt of the documents, including those previously requested, the competent authority of destination sends a so-called acknowledgement of receipt. Even if the notification is carried out correctly, the authority of dispatch may request further documents necessary for the assessment of the approval. However, it is obliged to forward the notification. In this case, the authority of destination may only send an acknowledgement of receipt once it has received notification from the authority of dispatch that these subsequently requested documents have also been received. No later than 30 days after the acknowledgement of receipt has been sent, all authorities involved shall issue their decision on the planned notification. This is done by

- Consent without conditions or
- Consent with conditions or
- raising an objection.

Bearbeitungsdauer

Frist

No later than 30 days after transmission of the acknowledgement of receipt, all authorities involved submit their decision on the planned notification.
