Volltext	You can obtain a residence permit for the recognition of your foreign professional qualification if you have been placed in employment in the health and care sector on the basis of an agreement between the Federal Employment Agency and the employment service of your country of origin (e.B. as part of the "Triple Win" programme for the placement of nurses) or on the basis of an agreement in another selected area.

Sachverhalt

You do not have to carry out a recognition procedure in Germany before granting the residence permit. This can also be started after arrival in Germany. The overall procedure required for this is regulated in the conciliation agreement.

The Federal Employment Agency must have consented to the exercise of employment in the desired occupational field. The approval of the Federal Employment Agency is granted for a limited period of one year. Consent may be granted for the exercise of employment in both regulated and non-regulated professions if certain conditions are met.

Regulated professions are those for the access and exercise of which special professional qualifications had to be acquired, e.B. in doctors, architects, pharmacists. You can find out whether your profession is regulated in Germany, which laws regulate it and which body you have to contact to check your qualifications in the information portal "Recognition in Germany" (see "Further information").

The Federal Employment Agency may give its consent for the exercise of employment in a regulated profession if the desired employment is closely related to the professional knowledge in the profession to be recognized after entry and further requirements are met (see under "Prerequisites"). A close professional connection is given if you e.B. Want to have your qualification as a health and paediatric nurse recognised and work in the field of nursing assistants during the recognition procedure.

The residence permit entitles the holder to work for up to ten hours a week, independent of the professional qualification to be recognised .

The residence permit for the recognition of the professional qualification on the basis of an agreement with the Federal Employment Agency is a temporary residence permit. It is granted for one year.
