Teaser	If you want to gain access to the telematics infrastructure (TI) in healthcare, you need an electronic health professional card (eHBA) as a person in a healthcare profession.
Volltext	The electronic health professional card (eHBA) is a chip card for the personal authentication of persons in health professions. The eHBA gives you access to the Telematics Infrastructure (TI). The TI networks all those involved in the healthcare system and thus enables access to the electronic patient record (EHR), for example, in the future. There are different eHBAs for different professional groups. There is an eHBA for: • Doctors • Persons in health care professions • Pharmacists With this online service, you apply for an eHBA as a non-licensed person in a healthcare profession. These include: • Health workers • Nurses • Geriatric nurses
