Teaser	If you want to trade in wooden packaging material as an entrepreneur, you must report the activity. You can find out more here.
Volltext	Companies that trade in wood packaging material in accordance with the International Standard for Phytosanitary Measures No. 15 (ISPM 15) are obliged to notify the authorities. Notes on ISPM 15: The IPPC standard ISPM No. 15 for wood packaging material specifies phytosanitary treatment and monitoring measures to reduce the risk of spreading harmful organisms through wood packaging material in international trade. The standard applies to all types of wood packaging material that can be a vector for harmful organisms and thus pose a risk mainly to living trees. This includes wooden packaging material such as crates, boxes, packing cases, dunnage, pallets, cable drums and bobbins.

Modul
Sachverhalt

The following items are exempt from the requirements of the standard due to low risk:

- Wooden packaging material made entirely of thin wood (with a thickness of 6 mm or less)
- Wooden packaging made entirely of wood-based materials, such as plywood, compressed wood, OSB fiberboard or veneer, manufactured using glue, heat or pressure or a combination thereof
- Barrels for wine and spirits that have been heated during manufacture
- Gift boxes for wine, cigars and other types of goods made from wood that has been treated or manufactured in such a way that they are free from harmful organisms
- Sawdust, wood shavings and wood wool
- Wooden components that are permanently attached to means of transportation and containers.
