Verfahrensablauf

For recognition, the competent body checks on the basis of your certificates whether or to what extent your foreign qualification corresponds to a German qualification for your chosen profession. This review is based on specified formal criteria, such as the content and duration of the training. Your relevant work experience will be taken into account, as will other relevant qualifications. For academic qualifications, you can apply for an assessment by the Central Office for Foreign Education (ZAB).

You can also find further information on German professions, on the recognition procedure and also on the relevant offices on the portal "Anerkennung-in-Deutschland" (Recognition in Germany). This Internet portal provides quick and easy answers to questions about recognition, for example:

- Do I have to have my professional qualification recognised?
- Is recognition worthwhile for me?
- Can I submit the application? Do I have a formal right to it?
- Which authority do I have to contact?
- What does the procedure look like?
- Which documents are necessary? What form must the documents take?
- How long does the procedure take?
- What does the procedure cost?
- Which laws are relevant to my case?
- In professions for which a licence is required, the recognition procedure can also be carried out via the single point of contact (currently in the scope of the EU Services Directive, from 18 January 2016 also in the full scope of the EU Professional Recognition Directive). NOTE: The time limit for submitting the application begins with the confirmation of the competent body that the required documents are complete.
